A BRAVE NEW WORLD

The ŠKODA SCALA is a bold step forward for the brand. Its sophisticated shapes create a striking play of light and shadow that blend timeless design with sporty character. Its dynamic silhouette is embraced by a practical spirit that makes the car the perfect partner for every stage of life.

The SCALA also offers abundant technologies uncommon in the compact hatchback segment. Advanced assistance systems and a new generation of infotainment mean you can stay safe without compromising on fun, on every journey.

That's Simply Clever. That's ŠKODA.

EXTERIOR DESIGN

GIVE THE EVERYDAY A SPORTY JACKET

Good design agrees with the heart and the head. Like in the new SCALA. This compact hatchback with a sporty spirit represents the next phase of ŠKODA's design language, while emphasising the strong relationship this brand has with its own tradition and history.

BLACK FEATURES

To add a more sporty and individual signature to daily driving, the SCALA can be enhanced with the optional black panoramic roof, roof spoiler, glass extended over the 5th door and attractive 18" Vega Aero alloy wheels, which can have a considerable impact on the overall aerodynamic performance of the car.

FRONT VIEW

Distinguished exterior features like the front grille or sharply cut headlamps in the shape of an arrow give the car an authentic look with a strong identity. Crystalline elements etched on the headlamps allude to Czech crystal craftsmanship, a declaration of the brand's proud lineage.

AERODYNAMICS

Every edge, contour and dimension of the car has been created to optimise aerodynamics. A desirable balance between its width and height projects safety and reliability.

SIDE VIEW

Characteristic lines on the sides of the car enhance its dynamics as shaped by ŠKODA's design language. The impression is even stronger with SunSet tinted windows, which not only accentuate the attractiveness of the exterior, but also protect rear passengers from glare.

REAR VIEW

As a badge of honour, the ŠKODA name proudly embraces the 5th door. This marks the confidence of a brand that has transformed its design philosophy. In models equipped with darkened glass extended over the 5th door, part of the rear lights are integrated into the glass.

**BEST VIEWED
FROM ANY ANGLE**

A man in a dark blue suit and light blue shirt is walking at night, holding a white coffee cup and saucer. He is looking to his right. The background shows a city street at night with a building that has a sign that says "only" and a red light trail from a car. The scene is reflected in a glass surface.

LIGHT DESIGN

REMAIN IN THE SPOTLIGHT

Light doesn't just illuminate. It inspires. The unique headlamps and slim long rear lights make the car instantly recognisable. The crystalline lamp design with integrated LEDs represents a perfect blend of Czech crystal tradition and modern technology.

FULL LED REAR LIGHTS

The SCALA features horizontally designed rear lights where the familiar C-shape illumination has been updated with a modern twist. This original light signature is accompanied by perfect functionality. The top-end option comes with the full LED rear lights, which are fitted with animated turn indicators – for the first time ever on any ŠKODA. These not only indicate where the driver is about to turn, but also add dynamism to the car.

FULL LED HEADLAMPS

The top-end option is all about LED technology including corner function. The strip of LEDs for daylight driving positioned at the upper part of the headlamp lends the car its sporty charisma.

SCALA

INTERIOR DESIGN

IT'S WHAT'S ON THE INSIDE THAT COUNTS

Stepping inside the SCALA is equally impressive. The well-appointed interior radiates with sleek design cues, exceptional spaciousness and cutting-edge digital technology.

VIRTUAL COCKPIT

The Virtual Cockpit displays on-board computer specifications in combination with other information such as navigation. You can choose from five layouts (modern view shown) controlled via the 'View' button on the steering wheel. The SCALA's Virtual Cockpit features a 10.25" display – the largest in the compact hatchback segment.

AMBIENT LIGHTING

Make your space more cosy and comfortable with LED ambient lights running along the dashboard. Your car can be equipped with white, red or copper lighting.

STYLE AND FUNCTIONALITY

The SCALA's interior is furnished with quality materials and great craftsmanship. Multiple combinations of upholstery and décor mean you can give your car a unique personality.

In the roof panel, you can find an additional USB-C slot which is ideal for charging devices mounted on the windscreen.

CONNECTIVITY

Stay connected wherever you are. Being fully and permanently online means always having access to entertainment and useful information. It also offers 24/7 assistance while on the move. ŠKODA Connect is your gateway to a world of unlimited communication possibilities.

See the exact location of your car from anywhere. ŠKODA Connect shows the address, time and date of parking on your phone.

This feature allows you to comfortably Lock and Unlock your vehicle via ŠKODA Connect App no matter where you are. For example, in case you forgot to lock your car, you can easily do so with your smartphone from anywhere.

This offer includes two types of service. Infotainment Online delivers real-time information about traffic and more, Care Connect focuses on help and safety, enabling remote access and control of the vehicle. It also offers assistance for any situation that needs it.

EMERGENCY CALL

An SOS call is made automatically during an emergency on the road. The system can also be activated manually by pressing the red button on the roof console.

ONLINE TRAFFIC INFORMATION

Up-to-date information gives you a perfect overview of every trip. It also enables you to react to new developments, such as roadworks, accidents and traffic jams. Also, local hazard information will warn you in case any inconvenience occurs on your way, such as difficult conditions or limited visibility.

ONLINE MAP UPDATE

Not only you do not need your own data for map updates, but the update is also completely seamless. You don't need to give it a another thought, as you will always have the latest maps available.

SHOP / INFOTAINMENT APPS

Thanks to the shop accessible via the infotainment system, you can purchase data plans, extend your ŠKODA Connect licence, and download infotainment apps. For example, you can get a detailed weather report for your current location or anywhere else with the Weather app. Infotainment apps will be regularly updated and more apps will be added over time.

A person with short brown hair, seen from the back, is standing in front of a modern building with large glass windows. They are wearing a light blue long-sleeved shirt. In their right hand, they hold a black flip phone. A brown shoulder bag is slung over their left shoulder, and a white bag filled with groceries, including a large carrot and green leafy vegetables, is hanging from it. The building behind them has a dark facade with white horizontal slats and large glass panels. The text "SIMPLY CLEVER" is overlaid in large, white, bold, sans-serif capital letters across the center of the image.

**SIMPLY
CLEVER**

THE CAR WITH AN IQ

The SCALA is equipped with a range of Simply Clever details that can handle all your needs. From loading your luggage or folding your towing device to adjusting the interior space to find room for big and small things, these thoughtful features take the headache out of travelling.

ELECTRICALLY-CONTROLLED 5TH DOOR

It opens and closes at the mere touch of a button on the remote control or in the driver's door, especially handy in unfavourable weather. You can also adjust the upper door position to suit your needs. A button for closing the 5th door is also located on the door itself.

FOLDABLE BACKREST

The foldable backrest of the front passenger seat gives the car even greater variability and allows you to transport objects with unusual dimensions.

TOWING DEVICE

The SCALA has a foldable towing device with electric release. The switch is in the luggage compartment.

ICE SCRAPER

The ice scraper, which is mounted on the fuel cap, can also be used to measure the depth of the tyre tread.

DOUBLE FLOOR

The double floor places the bottom of the luggage compartment on the loading edge level, facilitating easier luggage handling. In addition, it provides a discrete storage place.

LIQUID RESERVOIR

You will never spill a single drop when refilling the washer fluid. The liquid reservoir is not only easily accessible, but also has an integrated funnel.

LUGGAGE COMPARTMENT

DON'T PACK LIGHT

Don't think twice about what to take or not. The generous luggage compartment capacity of 467 litres, and 1,410 litres after folding down the rear seats, puts this car at the top of its class. In addition there are many options for ensuring your stuff stays in its place, without damaging the car.

DOUBLE-SIDED CARPET

You can use the carpet with the elegant fabric side up when not transporting anything that might make your car dirty, and can easily turn it over to utilise the washable rubber side when required.

NET PROGRAMME

One horizontal and two vertical nets increase the flexibility of the luggage space while firmly securing objects.

NET UNDER THE COVER

This net under the luggage compartment cover can serve as a safe storage place for items that you would like to transport separately from other objects.

COMFORT

TRAVEL COMFORT CLASS

Whatever comfort means to you, you'll find it right inside the SCALA. Travel in total ease with smart details like power connectors and sophisticated infotainment with GPS. In other words, unmatched comfort in its class.

AMUNDSEN 9.2" INFOTAINMENT

Attractive design is accompanied by perfect functionality. In addition to the touch or gesture control, you can operate the device via Laura, the digital assistant. This new enhanced and online-based voice control system can answer queries about a wide variety of topics and follows commands. For example, it will start navigation to a desired destination, find a favourite piece of music or take dictation for an SMS. The Web radio feature also comes as a bundle in combination with the Amundsen infotainment system. It allows you to expand the usual portfolio of conventional stations with your other favourite channels, podcasts, and news. You can tune in and listen in high quality to any radio streaming service in an area covered by the Internet. Combined with the Virtual Cockpit, the Amundsen infotainment system also offers the Traffic Sign Recognition function.

ONLINE PERSONALIZATION

You will appreciate this service especially if your car is driven by multiple users. Set the Individual driving profile, digital dashboard layout or air conditioning parameters – the settings will be synchronized with your ŠKODA ID account. Therefore next time you log in to your car after it was driven by someone else, you can comfortably set off with your preferred settings. With online personalization, you can set your preferred settings not only in your car, but in any ŠKODA vehicle that allows it.

HEATING FUNCTIONS

The heating function of the front windscreen, which quickly clears frost or steam, and heating of the multifunctional steering wheel are controlled via the infotainment system.

PHONE BOX / USB

The SCALA comes with an enlarged phone box which creates an amplified signal for your mobile device and, at the same time, wirelessly charges your phone while driving. This compartment is not only easily accessible, but is also suitable for large display devices. Two USB-C ports located in a centre console allow you to easily connect your external devices without the need for dongles or adapters.

KESY

The car equipped with KESY (Keyless Entry, Start and exit System) or with the simpler version Easy Start features a Start/Stop button on the steering column.

**RETRACTABLE MIRRORS**

The automatically retractable external side-view mirrors fold in when the car is locked, thus protecting them against damage.

**CRUISE CONTROL**

Practical Cruise Control or advanced Adaptive Cruise Control up to 210 km/h (see Safety chapter) are both available.

**ELECTRICALLY-ADJUSTABLE DRIVER SEAT**

For the best feeling behind the steering wheel, we offer you the electrically-adjustable driver seat.

HEATED SEATS / USB

In cold weather, your friends and family will appreciate the heated rear seats, which are regulated by a separate control on the rear side of the front armrest. Two USB-C slots enable universal mobile phone charging.

ŠKODA SOUND SYSTEM

Enjoy absolute sound clarity on the Sound System developed by ŠKODA for the SCALA. The system features ten speakers, including a central speaker in the dashboard and subwoofer in the luggage compartment. Among other features the sound can be adjusted according to how many people are in the car and where they are sitting via the All, Front and Driver profiles. The device offers a total power output of 405 watts.

SAFETY

WE'LL WATCH YOUR BACK

Embark on any adventure with complete confidence. The new SCALA comes with plenty of assistants supporting your driving skills on the road, helping you with parking and even preventing collisions.

SIDE ASSIST

Using radar sensors in the rear bumper, Side Assist which can detect other vehicles and even less detectable objects like cyclists up to 70 m away, monitors the areas behind and beside your car. Based on the distance and speed of the surrounding vehicles, it decides whether or not it should warn the driver.

REAR TRAFFIC ALERT

This assistant, which comes as part of the Side Assist system, helps you reverse safely from a parking space during poor visibility. It can even engage the brakes automatically if it detects imminent danger.

**MANOEUVRE ASSIST**

Using the sensors of the Park Assist, this system offers protection from obstacles within driving distance of the car (at speeds of up to 8 km/h). If an obstacle is detected, based on the distance from the obstacle and the car's speed, the system engages the emergency braking.

PARK DISTANCE CONTROL

Parking the SCALA is easier and safer with the parking sensors integrated in the front and rear bumper, which check the car's distance from any obstacles.

PARK ASSIST

Minimise the hassle of parking in tight spots with Park Assist. It automatically selects an appropriate parking spot in a row of parallel or perpendicularly parked vehicles.

FRONT ASSIST WITH PREDICTIVE PEDESTRIAN PROTECTION

The Front Assist system, using a radar device in the front grille, is designed to monitor the distance from the vehicle ahead, including emergency braking function. The SCALA comes with Front Assist expanded with predictive pedestrian protection, which warns the driver via an audio/visual signal as well as a gentle jolt of the brakes.

**AUTO LIGHT ASSIST**

Your Light Assist will switch to high beam and back automatically, increasing comfort and safety in traffic.

**ADAPTIVE CRUISE CONTROL**

Using a radar device in the front grille, in addition to its basic cruise control function, this assistant system, which operates up to speeds of 210 km/h, maintains a safe distance from vehicles in front of you.

LANE ASSIST

Operating at speeds above 65 km/h, this system can help to keep the car in the correct lane.

HIDDEN BODYGUARDS

In extreme situations, where the driver cannot actively influence the outcome, the car's passive safety elements take over – like the airbags. You can have your car equipped with up to nine of them.

FRONT AIRBAGS

While the driver airbag is enclosed in the steering wheel, the passenger airbag is located in the dashboard. If needed, this can be deactivated when a child seat is installed on the front seat.

HEAD AIRBAGS

Upon activation, head airbags create a wall protecting the front and rear occupants against head injury.

FRONT AND REAR SIDE AIRBAGS

These four airbags protect the pelvis and chest of the driver and other passengers in the event of a side collision.

KNEE AIRBAG

This airbag, which is located under the steering wheel column, protects the driver's knees and shins.

PERFORMANCE

POWERFUL, NOT POWER HUNGRY

Quiet, flexible, reliable and economical - that describes each of our engines on offer with the SCALA. Regardless of whether you choose a petrol or diesel drive, your SCALA will always behave like a snappy hatchback.

ENGINES

Our offer includes 85 kW and 110 kW petrol engines with excellent acceleration and high torque and an 85 kW diesel engine with exceptionally low fuel consumption.

DRIVING MODE SELECT

Activated with the mode button on the centre console, Driving Mode Select offers Eco, Normal, Sport and Individual modes. If the vehicle is equipped with a lowered chassis that is fine-tuned with the Sport Chassis Control, you can choose between Sport mode and Normal mode via Driving Mode Select.

DSG CONTROL

The automatic 7-speed DSG can be comfortably controlled via the multifunctional steering wheel.

EXIT >>>>

MONTE CARLO

The image shows the front interior of a car. The seats are black with red stitching and red accents on the side bolsters. The door panels and center console also feature red stitching. The gear shift is black with red stitching. The dashboard and instrument panel are black. The car is parked outdoors, with a wooden fence and trees visible through the windows.

FEELS COSY AND COMFORTABLE

Who said that being sporty rules out staying cosy? The SCALA MONTE CARLO features front sports seats, specific red/black upholstery and instrument panel in Monte Carlo design. In the interior you will also find leather features. The multifunctional sports steering wheel comes in perforated leather with distinguished red stitching. The standard equipment also includes black ceiling, pedal covers in alloy design and LED ambient lighting in red or white.

LOOKS SPORTY AND SPICY

The dynamic silhouette and sporty spirit of the SCALA fits perfectly with the Monte Carlo design. The black exterior features add more ferocity to the look of the car and underline its sporty charisma.

STYLE AND FUNCTIONALITY

The Monte Carlo version features among other things the darkened glass extended over the 5th door, longer roof spoiler in black, panoramic roof and black rear diffuser.

BLACK FRONT AND SIDE

The black front grille frame gives the Monte Carlo version a ferocious expression. The car is also characterised by other black features such as an add-on part on the front bumper, door sill covers and external side-view mirror caps. The black alloy wheels come as standard (optional 18" Vega shown).
